**DETAILED ACTION**

***Response to Amendment***

This office action is responsive to the amendments filed on 06/27/2007 in which the applicant amends claims 1, 30 and 55 and responds to claim rejections. Claims 1-11, 13-15, 30-44 and 55-69 are pending.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-11, 13-15, 30-44 and 55-69 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walker et al. (US 6,110,041) in view of Walker et al. (US 6,077,163) and Microsoft® Windows® 95.

The rejection as stated in the previous office action dated 03/27/2007 is maintained and incorporated herein.

Regarding the amended claim language of displaying a simulated game presentation of an entire game of chance, Walker'041 explicitly teaches presenting a simulated presentation of the selected game (6:30-40) wherein the presentation further includes animated reels/cards and the simulation of "playing the selected game."

***Response to Arguments***

Applicant's arguments filed 06/27/2007 have been fully considered but they are not persuasive.

Applicant alleges that the prior art does not present "a simulated game presentation, wherein the simulated game presentation is for allowing a user to determine the effects of different game feature settings on the game presentation prior to initiating wagering game play on the gaming machine wherein the wager is not required to view the simulate game presentation," however the examiner respectfully disagrees. Walker '041 does in fact explicitly teach the simulation of selected game elements and the simulation of playing the selected game which inherently does not require a wager since it is only a simulation of the game in 6:30-40.

Applicant further alleges that Windows "does not perform any simulation of any kind," however in the following sentence, applicant states that "Windows merely illustrates a single feature," which is akin to the simulation of a feature. Illustrating a feature is the same as simulating a feature. Examiner would further like to note that Windows does not merely simulate one feature, but several settings at once, such as the color, size, and font of the windows boxes.

In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). Therefore, there is no requirement that the examiner has to provide any reliance on the references for motivation to combine and furthermore, a reliance on what is obvious to one of ordinary skill

in the art for motivation to combine is not Official Notice and therefore no reference is necessary to maintain a proper rejection.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
